

**OCEAN VIEW SCHOOL DISTRICT  
GOVERNING BOARD MEMBER**

**BARBARA BOSKOVICH**

**OCCUPATION:** Governing Board Member,  
Ocean View Elementary School District

Ocean View School District is on the right track! As an incumbent member of the Board of Trustees, I am proud of the District's accomplishments. We have increased accountability, attracted and retained quality teachers, raised standards, tightened safe school discipline, encouraged parental involvement, and focused on the basic skills that students need to compete in the 21st Century.

Our students have benefited from the receipt of \$2.3 million in grant monies for technology, physical education, pre-school, after-school programs, school readiness, family literacy, and school renovation technology. We have maintained Class Size Reduction in grades K-3 without financial impact to taxpayers. Extensive K-8 staff development programs have focused on standards-based instruction, literacy intervention, science, math, curriculum calibration, special education blended services, and technology. Our "Open Door" policy enables participatory communication among the School Board, Superintendent, teachers, parents, community member, and the City of Huntington Beach, Fountain Valley, and Westminster.

To meet the challenges ahead, I will continue to encourage partnerships that will provide equitable education to our students, and will promote cooperation. Re-elect a team player to keep our schools at the forefront of elementary education and on the right track.

I ask for your "Vote" on November 2nd.
